

Saad Bilal

Senior Software Developer Architect | Full-Stack Developer | AI/ML & Cloud Expert

Email: iamsaadbilal@gmail.com | LinkedIn: [linkedin.com/in/saadbilal](https://www.linkedin.com/in/saadbilal) | GitHub: github.com/SaadBilal

Professional Summary

Innovative and results-driven **Senior Software Architect & Full-Stack Developer** with over **10 years of experience** designing and implementing **scalable, high-performance applications** across **mobile, web, and cloud** platforms. I specialize in **AI/ML, AWS Cloud, Identity Governance (IGA), and SAP BTP**, I have a proven track record of leading **enterprise software development** in **FinTech, Healthcare, and OSINT** domains. Expertise in **FastAPI, Django, Node.js, React, Flutter, Kubernetes, and Terraform**, ensuring **secure, cloud-native architectures**. Adept at **team leadership, system optimization, and automation**, delivering **cost-efficient and AI-driven solutions**. Passionate about **modernizing legacy systems, enhancing cybersecurity measures, and driving digital transformation initiatives** through AI-powered automation.

Technical Skills & Expertise

Backend Development: Python (Django, FastAPI), Node.js (Express), Java, TypeScript

Frontend & Mobile: React.js, Vue.js, Flutter, React Native, Android (Java/Kotlin), iOS (Swift)

AI & Machine Learning: NLP, OSINT, Llama3, BART, RetinaFace, Whisper, mBART50

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, IAM, CloudFormation), Docker, Kubernetes

Security & Compliance: HIPAA, HL7/FHIR/DICOM, Penetration Testing (Kali Linux)

Identity Governance & Administration (IGA): Access control, role-based security, audit & compliance

SAP BTP & OData: SAP BTP Mobile Services, OData Integration, Digital Transformation

Databases & APIs: PostgreSQL, Firebase, RESTful APIs, GraphQL, WebSockets

Project Management: Agile, Scrum, CI/CD, Jenkins, Bitbucket, GitHub Actions

Professional Experience

Senior Software Architect — YouAttest

Dec 2024 – Present | California, United States (Remote)

- Specialist in **Identity Governance and Administration (IGA)**, designing secure authentication and role-based access control.
- Architected **scalable AI-powered solutions** using **FastAPI and Django**.
- Implemented **AI and ML frameworks** such as TensorFlow, PyTorch, and OpenAI models.
- Developed **cloud-native applications** on AWS, ensuring security compliance.
- Led **software architecture strategies**, optimizing system performance.

SiParadigm Informatic Diagnostics — AWS Cloud Engineer & Python Backend Developer
Dec 2023 – Nov 2024 | New Jersey, United States / Islamabad, Pakistan

- Designed and optimized **AWS cloud infrastructure**, reducing costs by **20%**.
- Developed **scalable backend solutions** using **Python (Django & FastAPI)**.
- Implemented **CI/CD pipelines**, improving deployment speed by **30%**.
- Integrated **AI models** for medical diagnostics automation.

SwipBox (Denmark) — Development Lead – Mobile Technologies
July 2021 – Nov 2023 | Sønderborg, Denmark / Islamabad, Pakistan

- Led **mobile & backend development** for global logistics solutions.
- Developed **cross-platform apps** using Flutter & React Native.
- Ensured secure APIs and cloud deployments on AWS.

Redbeard.io (UK) — Development Lead – Mobile Technologies
Apr 2018 – June 2021

- Managed full **Android, iOS, and React Native development lifecycles**.
- Implemented **security patches** and optimized application performance.

Teointl, Islamabad — Associate Principal Software Engineer
Jan 2017 – Apr 2018

- Led mobile application and web platform development using PHP Laravel.
- Conducted security and penetration testing with Kali Linux tools.

Humanetek SMC, Islamabad — Senior Mobile Developer TL
Jun 2016 – Jan 2017

- Developed and managed Android/iOS applications, guiding development teams.

ForeFront Info (Saudi Arabia, Remote) — Technical Lead – Mobile Technologies
Jan 2016 – Jan 2017

- Directed mobile application development across multiple platforms.

DPLIT, Islamabad — Senior Mobile Developer
Jan 2014 – Jul 2016

- Managed the full application lifecycle and security updates for mobile/web apps.

Jolta Technologies, Rawalpindi — Team Lead – Software Mobile Developer
Aug 2013 – Jan 2014

- Led a team developing Android/iOS applications and managing workflows.**Punjab University Lahore** — Teacher Assistant
Jan 2013 – Jul 2013
- Assisted in Java and Android development courses, supporting students.

Vopium (MewApps Tech), Lahore — Android/iOS Developer

Jul 2012 – Jul 2013

- Involved in all stages of the software development lifecycle and testing.

Key Projects

OSINT AI Platform: Built **AI-powered investigative tools** for text analysis, facial recognition, and speech processing.

TAJ Digital Healthcare: Led **HIPAA-compliant telemedicine platform development**.

FinTech Solutions: Developed **secure financial APIs & transaction processing systems**.

SAP BTP Mobile Integration: Implemented **ODatadriven enterprise mobile services**.

IGA Solutions: Developed **role-based access control and compliance automation frameworks**.

Education & Certifications

BS Software Engineering / Computer Science – University of the Punjab (PUCIT), 2013

AWS Certified Solutions Architect (In Progress)

Professional Contributions

GitHub Open Source Contributor – github.com/SaadBilal

Technical Blogger – medium.com/@saadpucit

Mentor & Speaker – JumpStart Pakistan, Stack Overflow Contributor
